

A Window Novelty...

We are at present showing a great novelty in windows suitable for rustic cottages and houses where an unconventional effect is desired. The framework consists of squares of a choice Philippine wood filled in with thin translucent shell in place of glass. These unique windows are not only novel but extremely beautiful. We have only a limited quantity in stock.

When your vitality is low, you are miserable all the time. You are languid and depressed, your nerves are weak, and your appetite is poor. Read what

Ayer's Sarsaparilla

did for the invalid daughter of a grateful mother:

"My daughter had for a long time been troubled with violent headaches and sleeplessness. She was pale, had no appetite, and was losing flesh rapidly. She tried various remedies, but received no benefit until she commenced using Ayer's Sarsaparilla. After taking half a bottle she began to feel better. By a continued use of this medicine her appetite returned, her cheeks began to fill out and show color, she gained in strength, her headaches disappeared, she slept better, and now says she feels like a new person."

There are many imitations Sarsaparillas. Be sure you get "AYER'S."

DEADLOCK OVER TERMS TO LABORERS

BOARD OF IMMIGRATION AND ACTING GOVERNOR ATKINSON, ITS PRESIDENT, HAVE DIFFERENT VIEWS—J. P. COOKE SAYS THAT THE ATKINSON PLAN IF INSISTED UPON MAY BREAK UP THE WHOLE IMMIGRATION SCHEME.

The Board of Immigration came to a deadlock yesterday afternoon over the question of terms to be offered to immigrants which may be sent for from Europe or elsewhere. Acting Governor Atkinson president of the Board, and the other three members present, —Secretary J. P. Cooke, J. Carden and J. Craig—had strongly different views, and it was stated more than once during the discussion that the adoption of Atkinson's plan, which he emphatically declared to be the only one which Washington officials would countenance would defeat the entire scheme. Tonney was not present. The meeting adjourned without any conclusion being reached on the disputed question, which was as to whether the Board should insist that immigrants whom it brings here shall be given their homes in fee simple.

After a preliminary statement Atkinson said he had some very definite ideas on the subject of offers to be made. "When I left it was with the understanding that we would not countenance importation of any man unless we were going to give him land. In spite of that people are making applications for laborers to be brought here to occupy homes under lease. Are we going to go under the old labor system, or to build up an independent population of laborers, not dependent upon their employers? If the large landholders are to have control of the movement perhaps some day we shall get more Japanese, Chinese, South Sea Islanders or Indians and fire the whites out."

"I take exception to that," said J. P. Cooke. "So do I," said Carden. Atkinson said he didn't believe in getting any laborers unless they were given their own lands. Carden said that the board was dependent upon the planters for money to bring the immigrants and must get laborers for them. "I do not consider myself an agent of the planters here," said Atkinson. "If we do not put the laborers on the plantations they will not pay for them," said Carden.

"We have no jurisdiction over the laborers after they land," said Atkinson. "But we must start our work on the basis that only such men shall be brought by us as can get fee simple land of the plantations." Carden said this would shut out Waiakoa, Ewa and others. The Bishop estate held title to the lands they used and would not sell. "They will sell if they get a proper price," said the Acting Governor. "If the plantations find they need labor and cannot get it except by getting the land they will find possibilities."

Cooke said he would support a resolution stating that the Board was not satisfied with the terms offered for laborers to be brought here, but no action was taken. The Board adjourned to meet again at the call of the chair, and in the meantime there will be some more investigation of land possibilities.
